Old Gods disappear from the Lands Between, and the world is plagued with the rise of the dark power of the shadows. The majestic knowledge of the past is buried beneath the ruins of the past, and its secrets lie only in the memories of the heroes who survived to see these ruins. However, as the Heroes and the Gods alike have suffered great setbacks, those who trust the Gods and the Heroes meet in the Lands Between to seek out these secrets. In the midst of the Lands Between between various towns, there are many mountains and rivers that have been passed down through the ages. There is an Elder who lives in a small mountain castle, watching over these places, and as he watches over these places, he creates new heroes to guide you toward achieving your destiny. Before, I used to watch over these places and create new heroes. However, the sea of darkness that invaded the Lands Between frightened the old heroes and they withdrew from the world. This means that the heroes, these people that have nothing to do with the world outside, are the only ones left in the world. In the world of shadow, there was a little boy, whom people called "Child of Darkness". And I was this little boy. a Dark Jail via the Dungeon Secret Window**

Welcome to my series about ascii art, which includes screenshots, tutorials, tips on how to make everything yourself, and other fun articles about RPGs and other games. In this tutorial, you will learn how to open a locked door inside the dungeon of the Paradise City Jail in Vast and go towards the Hidden Ultimate Weapon.

The process consists of deleting several locked doors, while getting intelligent clues to find several keys that you will have to use in order to open your cell. This technique is one of the ways you can escape from the prison dungeon in Vast.

To get started, go to the location of the Paradise City Jail. Uncover several secrets to open a hidden journal and a locked door. Get ready to collect all the keys you need to open the locked door.

Also make sure that you have the item "Gem of the Curse's Scald Box" to avoid the draining of your attack power.

When you go to the last key, the door will open, and you will finally be able to see the important clues from the journal and get some of the valuable objects left in the room.
