1. PEGI system and some other hints for this new game: p.01-2: "We would like to announce that we will release Tarnished Soul in NA and EU. We will have a gallery of screenshots from the game to show you what it has to offer. If you want to know more about the game, the dev diary is up on our website. Tarnished Soul is a fantasy action RPG inspired by Fire Emblem and Shadow Dragon. It is a title about a Chosen One who fights alongside the Elden Lords of the Lands Between to defeat a demon lord's invasion. The world in Tarnished Soul is shared between four different story arcs. Each arc is made of eight different stages. Your actions will affect the story in ways you don't expect, and will you choose to become a "Dark Hero"? An Elden Lord with the burden of a cursed name." 3. Character names?: Elden Ring Product Key game official twitter account (the link is inside the article, they posted a link to screenshots of it): Some people think that their names are implied by their armor color. I think the people doing the beta and white knighting (the people that bought the DLCs that are only for PC) got it. Anyway, me, I think that Tarnished Soul's names are: Ezura, a dark character who fights with a sword and shield Tarciano, a light character who fights with a spear (but he has been nicknamed "the spear-bearer" by the beta testers) Taura, a dark character who fights with the bow Tamullus, a light character who fights with a rapier Liara bff6bb2d33

What's new in Elden Ring:

Hi It's me guys in my most opinionated rant, ever! In this week of light reveals that could be a whole suite on it's own, I'm checking out some details we already know about Obsidian's new project, Age of Empires Online. The game is set in a pre-historical England, complete with technology and even a boat, no lie. There are real players like myself playing for real points. Here's the specifics: Barbarian skill tree! The game is made up of four ages and four abilities. Each of these ages is split into four abilities called abilities. Features Season 1 has already been released and is now available for download! That means in addition to the usual content, this release also has the new campaign map, Legion, and an early access key. Content A new campaign map, Legion, has been released. The Kingdom of Anglemire, in the northernmost part of the Lands Between, faces the threat of a Barbarian tribe from the south. The King is dead. The peace among lands has long since broken, and the war has begun... Introduction: The first Warcraft to debut on the Xbox 360, the sequel to the PC game, World of Warcraft! It received a whole new game engine and looked much better than the existing PC version. This title has a dungeon exploring focus and has many, many improvements over the PC version. It features an entirely new Dungeon Finder--called World PVP. PVP is also completely new. PVP differs from PvP in that 5v5 PVP is a repeating event. There is no voice, no command/control, no stickies to zone, only a standard map, compass, and UI. It has extremely fast reaction times and it's a really fun way to just kill people for practice. PvP's main feature is team warping. Whether you are in your own party or in a guild, players can warp to the party's entrance, the exit, or specific entrances. There are no instancing. In PVP, entering the same instance as someone in a party can mean that the warping server gets some "revenge." This is one of the best new features for WoW, as you can see yourself that it isn't a Starcraft-like game that works on a "castling" model that they need to detect the airwaves between zones. World PVP features progressively harder raid content on each server. After clearing the Caverns

Amputee's shattered foot fixed A 46-year-old man had his right foot removed after a blast injury while working as a boilermaker. His prognosis was not good, even with the post-amputation care he received from a major Kansas City surgeon and a little luck. "The prediction was that he would likely walk with a boot, especially since he was working as a boilermaker, which is a rather dangerous job," said Dr. Swasey, chairman of the Department of Plastic and Reconstructive Surgery at the University of Kansas Medical Center. "What was most impressive is that not only did this man still go to work each day; he worked for a decade." A pipe had exploded four years earlier and damaged his right foot. He also had a deep burn, which needed 32 surgeries over the next several months, and had burns of
